PROFESSIONAL SUMMARY

Product and UX designer with 3+ years of experience designing complex systems into clear, usable interfaces across B2B SaaS, healthcare, GRC compliance, IoT, and service design. Strong in information architecture, high-fidelity prototyping, design systems, workflow mapping, data-heavy dashboards, and AI-assisted enterprise workflows.

WORK EXPERIENCE

UX Designer | 4CRisk.AI

July 2024 - Present | GRC compliance, AI-assisted workflows, enterprise SaaS

- Design AI-assisted GRC and regulatory compliance workflows across regulatory change management, regulatory research, compliance maps, rulebooks, dashboards, and enterprise workflow tools.
- Own UX from research and workflow mapping through high-fidelity prototypes and reusable design system components.
- Translate dense compliance tasks into clearer interaction patterns, information hierarchy, and operational dashboards for enterprise users.

UX Designer (Contract) | Thingularity

April 2024 - May 2024 | IoT, B2B SaaS, device management

- Redesigned UX for a B2B IoT device-management platform focused on onboarding, multi-location monitoring, dashboards, and reusable interface components.
- Mapped operational workflows and simplified information architecture around real user tasks rather than technical data structures.
- Created product screens and component patterns for device cards, status indicators, alerts, tables, and monitoring views.

UX Designer | Datma

June 2023 - March 2024 | Healthcare, oncology, data visualization

- Designed Datma.360, a precision medicine platform combining genomics data, patient records, treatment histories, and clinical trial matching into a unified clinical interface.
- Structured complex clinical data into high-contrast dashboards and scannable patient views for time-sensitive oncology workflows.
- Worked on data hierarchy, clinical UI patterns, and design system foundations for genomics, history, and trial-matching views.

B2B Service Design Project | Srishti Institute / Thesis

February 2023 - April 2023 | Service design, B2B product strategy

- Designed a B2B marketplace concept connecting creators and brands, including service blueprinting, creator profiles, brand dashboards, deal workflows, and brand identity.
- Worked across research synthesis, system mapping, product flows, and launch-ready product presentation.

Business Design Intern | earthBaby

December 2022 - February 2023 | Service design, strategy, sustainable baby-care startup

- Contributed to service design and go-to-market strategy work, including customer journeys, service blueprints, and brand-aligned touchpoints.
- Supported digital and physical experience design across early-stage service and business design workflows.

Service Design Collaboration | Jaipur Rugs

September 2022 - December 2022 | Service design, heritage craft

- Collaborated on service touchpoints connecting artisan, customer, and brand experiences for a heritage rug context.
- Worked across journey mapping, service thinking, and digital experience opportunities rooted in traditional craft culture.

Design Intern / Marketing | Gubblebums

May 2022 - July 2023 | Visual design, branding, children's edtech

- Created visual identity, marketing collateral, and digital content for a children's edtech brand.
- Developed approachable visual assets for parent-facing and learner-facing communication.

SELECTED PROJECTS

Avail - B2B marketplace thesis connecting creators and brands; included service blueprinting, creator profiles, brand dashboards, deal workflows, and brand identity.

Instead - Service-designed mobile app for healthier snack decisions using barcode scanning, alternatives, nutritional comparison, and preference-led decision support.

Supernaturalis - Personal photocompositing series exploring light, mythology, symbolism, and layered image-making.

EDUCATION

Srishti Institute of Art, Design & Technology | Bangalore | 2019 - 2023

Bachelor of Design, Business Services and System Design; Human-Centered Design, Service Design, Business Design, Product Thinking

SKILLS

Design: UX/UI Design, Product Design, Service Design, Systems Design, Design Research, UX Research, Wireframing, Prototyping, Product Ownership, Business Design

Domains: B2B SaaS, GRC Compliance, Healthcare UX, Clinical Interfaces, IoT Platforms, AI Workflows, Dashboards, Data Visualization

Tools: Figma, Claude, Framer, Photoshop, Illustrator, After Effects, Premiere Pro, InDesign, Adobe XD, Midjourney, DALL-E, Jira
